## PERSONAL PROFILE

A Developer with Full-Stack experience but a preference for the Front-End. Focus on design and always providing a high-quality User Interface (UI) and User Experience (UX).

## SKILLS

### Front-End

- HTML5, CSS3, JavaScript/ES6/ES2015
- React, Redux, React-Native, Gatsby
- Fetch, Axios, Styled-Components
- JQuery, Bootstrap, Sass, TypeScript
- Responsive Design, GraphQL, Angular

### Back-End

- Node, Express, OAuth, Joi, Passport
- Mongoose, Bcrypt, JWT Authentication

### Databases/Tools

- PostgreSQL, MongoDB, Firebase, Jest
- Enzyme, Version Control (Git), Postman
- Firestore, VS Code, CMS (Contentful)
- Scrum, AWS, Agile, NPM, Webpack
- Design Patterns (MVC, Flux)
- Object-Oriented Programming (OOP)
- Mocha, Sketch, Figma, Adobe XD

## ACADEMIC BACKGROUND

### CareerFoundry

Full-Stack Development (Dec 2019)

- An 8-month intensive training program for Developers, specializing in Frontend, Backend, and Mobile Development.

### University of Toronto (UTM)

Bachelor of Arts - BA  
Philosophy & English Literature  
(Dec 2016)

## PROJECTS

### Artier [ [Demo](#) ] [ [Code](#) ]

*React-Native | StyleSheet | Hooks | Redux | Firebase | Firestore*

- An application that allows users to rate art in a swiping style identical to Tinder.
- Users can create an account and login via Firebase Authentication, and upload pictures of their art via their camera roll or gallery and store them in the Firestore database.
- Users can see the total number of likes and dislikes of their own art on their profile.

### All Ball [ [Demo](#) ] [ [Code](#) ]

*React | Styled-Components | Hooks | React-Router | Fetch*

- An application that, based on user input, displays various types of statistics about teams, games, and players in the NBA.
- On initial load, the home screen will display game results and the top five players from the previous night.
- Statistics can be sourced from 1985 to the current day, and dates are saved in local storage to ensure user input does not reset.

### App Track [ [Demo](#) ] [ [Code](#) ]

*React-Native | StyleSheet | Hooks | Redux | Firebase | Firestore*

- An application that allows users to create and store job applications with the Firestore database.
- Users can create an account and login via Firebase Authentication.
- All of the current user's jobs are displayed on the home screen with a swipe to delete function.

## PROFESSIONAL EXPERIENCE

### Full-Stack Development Tutor

*CareerFoundry | Nov 2020 - Present*

- Respond to questions from students and grade project submissions in a timely manner.
- Help prepare students' entry into the industry, and troubleshoot any problems that a student may have regarding an assignment.

### Account Manager

*Active Sales Inc. | Dec 2016 - Feb 2022*

- Forecast and track key account metrics.
- Serve as the lead point of contact for all customer accounts and I.T. matters.
